

Plantilla simple para informes de avance proyecto del curso

Estudiante Maestría en Ciencias de la Información y las Comunicaciones ^{*†}

Abstract

Por favor escriba aquí su resumen.

1. INTRODUCCIÓN

Escriba aquí su introducción. Como ejemplo, aquí solo se tiene una sección.

2. Divida su sección en subsecciones

2.1. Subsección Uno

Aquí una sección se divide en subsecciones. Esta es la subsección 1.

2.2. Subsección Dos

This is sub section 2 of the main section. You can add any number of subsections in a section.

3. Nueva Sección

Here you can represent the data as a list of items. Use the following format to list your Data. There are three items given below.

3.1. Creación de múltiples elementos

- Este es el primer elemento de la lista. You can delete this line and enter your content here.
- Was this the face that launched a thousand ships, And burnt the topless towers of Ilium? Sweet Helen, make me immortal with a kiss. Her lips suck forth my soul, see where it flies. Come, Helen, come, give me my soul again. Here will I dwell, for heaven is in these lips, And all is dross that is not Helena. I will be Paris, and for love of thee,

[†]Give Author Details here. In the following line enter your Mail ID DDD@humanity.in

Instead of Troy, shall Wittenberg be sacked; And I will combat with weak Menelaus, And wear thy colours on my plumed crest, Yea, I will wound Achilles in the heel, And then return to Helen for a kiss. O, thou art fairer than the evening air Clad in the beauty of a thousand stars, Brighter art thou than flaming Jupiter, When he appeared to hapless Semele, More lovely than the monarch of the sky. In wanton Arethusa's azur'd arms, And none but thou shalt be my paramour.

- This is the Third item in the list. If you want just two items you can delete this whole section.

4. How to Deal with Equations

This section gives you a template to deal with equations.

$$\varepsilon + \mu = \nu \quad (1)$$

$$\theta + \delta = \gamma \quad (2)$$

$$x^2 + y^3 = z^4 \quad (3)$$

If you don't want to number your equations use the following syntax.

$$\varepsilon + \mu = \nu$$

$$\theta + \delta = \gamma$$

$$x^2 + y^3 = z^4$$

5. One More Section

A Book of Verses underneath the Bough, A Jug of Wine, a Loaf of Bread—and Thou Beside me singing in the Wilderness— Oh, Wilderness were Paradise enow!

5.1. This is a Sub Section

I sent my Soul through the Invisible, Some letter of that After-life to spell: And by and by my Soul return'd to me, And answer'd "I Myself am Heav'n and Hell:"

5.2. One More Sub Section

Ah, my Belov'ed fill the Cup that clears To-day
Past Regrets and Future Fears: To-morrow!—Why, To-
morrow I may be Myself with Yesterday's Sev'n Thou-
sand Years.

6. Tables and Images

Now let us learn how to create tables and show im-
ages in a Conference paper.

6.1. Creating Tables

Copy the following code segment, if you want to
have multiple tables in your article. Be sure to rename
the label every time you copy the code.

Table 1. Enter the Table Name Here

Sachin	Dhoni
Kohli	Raina

6.2. Showing Images

Copy the following code segment, if you want to
have multiple images[1] in your article. Be sure to re-
name the label every time you copy the code. The image
will be shown below this text once you uncomment the
first line of code given below and give the path name of
the image to be displayed. If the image is given in the
same folder as the Tex file, just enter the name of the
image in the code given below.

Figure 1. Enter Your Caption Here

7. CONCLUSIONES

Enter your Conclusions here in this section.

APÉNDICE

The usual convention is to enter Appendixes before
the Acknowledgment.

RECONOCIMIENTOS

I thank the Almighty God. How numerous you have
made your wondrous deeds, O Lord, our God! And in

our plans for us there is none to equal you, Should I
wish to equal or tell them, They would be too many to
recount.
